How to scan photos on the Epson Fast Foto scanner

For Mac and PC

1. Load your photos in the scanner as pictured. **(Fig. 1)**

2. Double click on the Fast Foto icon. **(Fig.2)**

3. In the window that appears, click on the Start Scanning button. **(Fig. 3)**

4. You can choose to organize your photos by date and subject or put them in a folder. Once you are happy with the settings, click Start Scanning. **(Fig. 3)**

5. Once your photos are scanned, you can either scan another batch or click Done Scanning. Your photos will be in the Work in Progress folder. **(Fig. 3)**
