# BlueDriver®

Quick Start Guide

Please download the BlueDriver App and  
**review setup instructions inside!**

## Let's get scanning!

**Note:** Your BlueDriver uses Bluetooth LE, so you pair it from **within the BlueDriver app**.

\* OBD2 port is usually located underneath the driver side dash, or center console.  
 \*\* BlueDriver does not access location data. Required for in app pairing. You can also pair from the device settings if you would prefer not to turn on location services.
